## Wipro Fresher Training Program

The WIPRO FSD Java program is rigorous and requires dedication and commitment from you to achieve its learning outcomes. On an average, you will need to dedicate 15 hours of time week to the program and it is critical that you follow the timelines and keep up with the program otherwise you will be at risk and it will become very difficult to catch up. There are several mechanisms such as reminders and notifications built into the system to help you maintain the schedule, but the most important requirement is your commitment.

The program enables learners to gain an in-depth understanding of Full Stack Development and tools that are widely used by your organization from the convenience of their homes without any location constraints. It is an e-learning program that takes a very practical approach to teach Cyber Security techniques enabling participants to apply their learning immediately.

We wish you a very exciting and fruitful journey with Great Learning.

## PEDAGOGY

The video content will be delivered by Great learning faculty and industry professionals. This ensures that the program imbibes the academic elegance and Industry's Business relevance, thereby providing the learners with a remarkable learning experience.

### Instructor led Learning Sessions

Mentored learning sessions are held twice a week online based learning sessions conducted by our faculty. It enables the learners to be more engaged and participative. In these sessions, the mentor plays the role of the instructor, reinforces concepts learnt through self-paced content, teaches few advanced concepts, illustrates concepts through example and clears doubts to ensure learning happens.

## Aim

- To comprehend learning material better with our mentoring sessions.
- To create a stimulating learning environment with our optimized mix of video lectures, hands-on practice and mentored led interactive sessions.
- To make learning effective as information is provided in shorter and manageable portions.
- Have a more flexible and manageable learning schedule giving the freedom to acquire a new skill in a productive way.

## Video Lectures

Every week in the program, you will receive a welcome note providing a detailed schedule of the course and planned activities. Please check Olympus for the course outline, reference material and other pre-class requirements you may need to familiarize with before the start of video content.

## Preparing for Mentor Learning Session

- Prior to the mentor learning session, you will receive an announcement regarding the agenda of the session.
- Participants are expected to watch the previous day's video content before attending the mentor learning sessions.
- You are expected to post your questions under the Discussion thread (Ask Your Queries) in Olympus at least 48 hours prior to the session so that your queries are resolved in a systematic way. You are also expected to stay on track with the schedule so that you are able to follow what is being taught.

## TECHNOLOGY ENABLED ONLINE LEARNING

Online learning, facilitated through a state-of-the-art, world-class, Learning Management System is an integral part of the program which is named as Olympus. **Olympus is your primary information and communication exchange mechanism.** It will provide access to the learning material that is part of various courses. This includes online videos, projects, and quizzes. It also has mechanisms for you to communicate with the Program Office.

After you log in to Olympus please do the following:

1. Update your profile with the correct name to be published in the certificate.
2. Update your notification preferences
3. Read through the documents on how to use the Olympus.

## Mentored Learning Sessions Platform

- The online-mentored learning sessions will be conducted on Zoom. Participants are expected to download and install zoom software from [www.zoom.us](https://www.zoom.us).
- A 9-digit meeting- ID will be shared with all learners before the session.

## **PROGRAM EVALUATION**

The program curriculum consists of a combination of video lectures, graded assessments (projects and quizzes). While we encourage collaboration, we expect learners to adhere to the highest standards of ethics and avoid plagiarism and copying. Given that you are all professionals who are pursuing this program with the primary objective of learning, you are expected to follow the honor code and not indulge in unethical behavior or plagiarism. Your progress along the course, attendance for the mentor learning sessions and performance on assessments will be shared with Wipro team.

## **COMMUNICATION**

The program office is your partner in ensuring you achieve the desired learning outcomes. Use the following means to communicate with the Program Office and your peers to get a timely response to your queries.

### **1. Program Support on Olympus**

Use the "**Support**" feature provided for any clarifications. These may include any of the following

1. Clarifications to course concepts/ doubts.
2. Clarifications/Support to assignments or quizzes.
3. Clarifications/Support on missing data sets, course material
4. Any other personal issues such as seeking permission to miss a mentor learning session due to travel etc.

### **2. Announcements**

The Program Office may also communicate with you when important information has to be solicited, shared or in response to your questions. The program office will post an announcement when new course material is available if there are any changes to upcoming courses and other program-related issues. These announcements will appear on your home page of the Olympus. Please ensure that you log in regularly and pay attention to any new announcements to ensure that important information is not missed. You can also modify your communication preferences so that an automated email is sent to you whenever a new announcement is made.

### **3. Notifications**

Notifications are automated system generated messages sent to all learners whenever important/new information is available. These may involve the availability of grades, reminders for an upcoming assessment due date and when assessments are released. These notifications will also appear on your home page of Olympus. You may again modify your communication preferences to receive an email whenever a notification is made.

### **4. Discussion Thread**

Use the discussion thread (ask your queries) provided in the course for any course related clarifications which may benefit the whole batch. These may include any of the following

1. Clarifications to course concepts

2. Clarifications to assignments or quizzes
3. Discussions on course material
4. Clarifications on missing data sets, course material or recordings
5. Students are encouraged to reply to the thread if they are able to clarify a peer's doubts. This enables quicker resolution of concerns and also facilitates peer learning. You may build on the discussion, clarify a question or present an opposing point of view.

Since this is public to the whole batch, please be courteous and considerate while posting your comments.

## CODE OF CONDUCT

Great Learning's Honor system expects learners to act with integrity, respect community standards, and manifest a commitment to ethical responsibility in all matters. This includes all academic activities (interaction with other learners during group assignments, online discussion etc.)

The honor system expects all learners to act professionally in all matters, including with respect to resolution of disputes.

## CONCLUSION

Once again, congratulations and welcome as you begin your journey with Great learning. Since WIPRO FSD Java program is a rigorous program, you will find that there may be many challenges – academic and personal. But remember that we are here to encourage and support you as you meet your learning objectives and achieve your career aspirations.

**Happy Learning!**
